Tony Stark in Phases 4-6

LOCKED: Tony Stark survives *Endgame* (Volume 12), so **Marc-Anthony appears throughout Phases 4-6 in both films and series**. He is the bridge between the two sagas and Doctor Doom's great rival.

The list of specific appearances below is **recommended**. Each one comes from Tony's comics history, and every title is on the real slate (Volumes 04 and 11).

Films

Film	Release	Size of role	Tony's role (comic source)
Spider-Man: Far From Home (end of Phase 3)	July 2, 2019	Supporting	Peter's mentor, alive. Mysterio is a bitter former Stark Industries employee, so Tony's past creates the villain.
Spider-Man: No Way Home	Dec 17, 2021	Supporting	Tony's guidance as Peter's secret identity collapses, echoing the comics' *Civil War* (2006), where Tony is at the center of Peter's unmasking.
Doctor Strange in the Multiverse of Madness	May 6, 2022	Supporting	**The Illuminati.** In *New Avengers: Illuminati* (2006), Tony is a founding member of the secret council, so Earth-616's Tony sits at the table.
Black Panther: Wakanda Forever	Nov 11, 2022	Cameo	Tony meets Riri Williams. In *Invincible Iron Man* (2016), he endorses her as Ironheart.
Captain America: Brave New World	Feb 14, 2025	Cameo	Tony and President Ross, the man who wrote the Sokovia Accords, on opposite sides.
Spider-Man: Brand New Day	July 31, 2026	Supporting	Mentor role.
Avengers: Doomsday	Dec 18, 2026	**Lead**	**Iron Man vs. Doctor Doom** (*Doomquest*, 1981). Marc-Anthony faces Robert Downey Jr.
Avengers: Secret Wars	Dec 17, 2027	**Lead**	In Hickman's *Secret Wars* (2015), Tony is one of the heroes who survives the multiverse's end and confronts God Emperor Doom on Battleworld.

Series (Donohue+)

Series	Premiere	Size of role	Tony's role (comic source)
What If...? (seasons 1-3)	Aug 11, 2021	Voice	Marc-Anthony voices every Tony Stark variant.
She-Hulk: Attorney at Law	Aug 18, 2022	Cameo	A legal-comedy cameo, built for Marc's unfiltered humor, alongside Amond's Bruce.
Secret Invasion	June 21, 2023	Supporting	In the comics, *Secret Invasion* (2008) is one of Tony's defining stories. Here his best friend Rhodey has been replaced by a Skrull, and Tony uncovers it.
Ironheart	June 24, 2025	**Major sup porting**	**Riri Williams's mentor.** In the comics, Tony guides Riri (as an AI while he is in a coma). Our Tony is alive and mentors her in person.

The real-world story: Marc-Anthony becomes the only actor who anchors all six phases. In 2019 the industry assumes he'll take a farewell bow, and instead he's in the Multiverse Saga. Trade headlines call him *"the MCU's North Star."* Desmond Smilley is less than thrilled.
